JBC/2020/013042R2

The transcriptional corepressor CBFA2T3 inhibits all-trans retinoic acid-induced myeloid gene expression and differentiation in acute myeloid leukemia

Dear Dr. Zhang:

We are pleased to tell you that your manuscript has been selected as one of JBC's "Editors' Picks."

Our editorial board members and associate editors have determined your paper is in the top 2 percent of manuscripts they will review in a year in significance and overall importance. About 50 to 100 papers are selected from the more than 6,600 we publish each year.

Because your article was chosen as one of our Editors' Picks, it will not fall under the normal 12-month embargo. If you have received support from an organization requiring that your article carry the Creative Commons CC-BY license, please indicate that on the form you return with your proofs. Your open access fees will be waived by the Journal. However, you are responsible for your standard publication charges, detailed here: <https://www.jbc.org/site/misc/ifora.xhtml#charges>.

Your paper will appear under "Editors' Picks" online in the Table of Contents of the issue in which it will appear. The paper also will be included in a cumulative collection accessed from the JBC homepage, www.jbc.org.

In addition:

- * To highlight scientists at early stages in their careers, we would like to profile the first author of your paper. Instructions for completing the profile are below.
- * We also will consider your paper for a cover figure. Instructions for submitting figure candidates are below.
- * We would like to offer our assistance with publicizing this paper. Instructions for developing a press release with our team are below.

Again, congratulations and thank you for your submission.

Sincerely,
Lila M. Gierasch
Editor-in-Chief

FIRST-AUTHOR PROFILE

We would be delighted if the first author of your manuscript would share some of their experience in conducting this research with our readers. If they are willing, please ask them to provide responses to the requests below. If there are co-first authors indicated in the manuscript, we would be happy to feature each of them separately.

- 1) Please answer one or more of the following questions: How did you become interested in this topic? Can you describe an exciting moment you experienced while doing this research? If you could go back in time and re-do this project, what advice would you give your past self? What do you hope to do next? Where do you seek scientific inspiration?
- 2) Current position: Please provide your title, department and institution.
- 3) Education: Please indicate your highest degree received, the discipline in which it was received, and in what year/from which institution it was granted.
- 4) Please list any social media handles or personal websites you would like us to link to.
- 5) Please include a current photo.

You can find examples of these profiles here:

https://www.jbc.org/content/293/9/3218/suppl/DCAuthor_profile

https://www.jbc.org/content/293/6/1887/suppl/DCAuthor_profile_KEV

Please send the information to JBC's Production Manager Joyce Eavenson at joyce.eavenson@cenveo.com within the next week.

COVER-FIGURE CANDIDATE

The cover illustration you submit for consideration must be received before you submit the proofs of your manuscript. Candidates
